

PRISHA
ILLUMINATION

The image shows a modern building at night. The building's facade is composed of numerous vertical slats, each of which is illuminated from within, creating a warm, golden glow. The building is curved, and the lights create a rhythmic pattern of light and shadow. In the foreground, there is a landscaped area with a winding path and several small, square ground lights that are also illuminated. The sky is a deep blue, and the overall atmosphere is one of sophisticated and modern lighting design.

ABOUT US

Lighting is essential; we make it exceptional. Prisha Illumination transforms environments, letting light truly inspire. We believe in lighting that blends precision, purpose, and flexibility, turning spaces into expressive atmospheres where light sets the tone.

With over two decades of expertise, Prisha Illumination is a trusted name in high-performance, design-driven, and sustainable lighting solutions. Built on a strong retail foundation, we've expanded across India with an extensive dealer network, countless completed projects, and a growing network of architects, designers, and satisfied clients.

Our qualified team collaborates closely with industry professionals to create lighting that is technically sound and visually refined; combining optimal heat management, high CRI standards, and adaptable design.

We Design

We design light with intention - blending creativity, technology, and aesthetics to transform ordinary spaces into visual masterpieces. Every curve, beam, and color is thoughtfully planned to match your vision and architecture.

We Customize

Your space is unique - and your lighting should be too. We tailor every project to your specific style, needs, and functionality, ensuring each installation is one-of-a-kind and truly yours.

We Perform

From concept to completion, we deliver with precision and passion. Our expert team brings your lighting dreams to life through flawless execution, professional craftsmanship, and on-time delivery.

Our Vision

To lead in innovative lighting by blending design, technology, and sustainability brightening spaces and inspiring lives across India and beyond.

Our Mission

We deliver high-quality, energy-efficient lighting tailored to each project, with a wide product range & reliable service building lasting relationships through trust & excellence.

Our **Core Value**

Committed to excellence through thoughtful design, trusted expertise, & environmentally conscious lighting innovation.

BIG ideas need space

COMING soon

Professional R&D and Engineers

Each product is expertly designed in **Germany, Italy, and Spain**, reflecting a fusion of global creativity and technical excellence.

Backed by an advanced **R&D and testing laboratory in India**, every design is thoroughly validated to ensure unmatched performance and reliability.

Our Own Manufacturing Plant

Prisha Illumination's key strength is its own assembly unit for faster, more accurate dispatches, and it is now establishing **its own large manufacturing and warehousing plant in Ahmedabad** to redefine the art of lighting with an equipped R&D team.

“We are currently expanding our manufacturing unit, which will soon cover 25,000 sq. ft.”

LIGHTING DESIGN SERVICES

Where Vision Meets Illumination

“At Prisha Illumination, we don’t just design lighting ; we design experiences.”

From the first spark of an idea to the final beam of light, we collaborate with architects, interior designers, and developers to turn spaces into stories.

Just share your AutoCAD files, and our expert design team will deliver a custom, energy-efficient lighting layout that blends aesthetics, performance, and innovation. Every fixture is placed with purpose and every detail is engineered for brilliance.

Let’s transform your blueprint into brilliance.
Design with intent. Light with impact.
